Several of you have asked about buying our sales office. Now you can!

We've moved and that means our original sales office, which was built to showcase our home designs and display our quality construction has been transformed into a 2,000 + square foot, one-of-a-kind new home and is now available for purchase.

We've preserved the barrel vaulted ceiling, painted like a sky which now enhances the front foyer. The soaring vaulted ceiling and Italianate chandelier accentuates the dining room. The dramatic side windows flood the home with natural light. Sun rooms on the main and walkout levels overlook our best water feature and fountain. The finished basement is huge, has 9 foot ceilings with tall windows and walks out to the pond. This home is truly unique and unlike any other that we'll offer and its location can not be duplicated. See it today!

Keeping you up to date with our progress!
